E is for Expression – it's how we let our feelings out
No matter if we talk or sing, or even if we SHOUT!
We all have feelings deep inside we really must express
So build, or draw, or write or SING! there's no need to impress.

E is for Expression

It's how we let our feelings out. No matter
if we talk or sing, or even if we SHOUT!
We all have feelings deep inside we really
must express. So build, or draw, or write
or SING! there's no need to impress.

Friendship's like a secret we can share with just one other
Like the chance to pick out a new sister or new brother
Except that you get to choose them and they get to choose you
And you'll fight for each other, no matter what you're going through.

R is for Race – it's nothing but your skin, your hair, your face
It isn't who you are inside, but still can't be erased;
So get to know your friends and foes for who they really are
Look past their surface deep inside and it will take you far
